

## AIRCOAT DIAPHRAGM PUMP

The painting unit with a systems solution for the professional trade

## Finish 230 AC compact

The Finish 230 AC compact is a mobile diaphragm pump with an already integrated compressor. It provides great flexibility with perfect results in the workshop and on the building site.

- **Complete**  
The unit is equipped as standard with a powerful, quiet compressor.
- **Long life**  
The proven diaphragm pump technology has extremely low wear time and is ideal for painting. Its long life cycle makes it a reliable companion with a particularly good Price/Performance ratio.
- **Perfect**  
All the components are perfectly matched. The benefits of AirCoat painting are:
  - extremely fine atomisation
  - little overspray (material savings of up to 30 %)
  - high application efficiency

## Finish 230 AC compact

The Spraypack is equipped with the green air cap. It is especially suitable for **water based** and **solvent based** materials. Its air consumption is up to 30 % lower, saving energy and thus costs and also reducing the impact on the environment.

With the ergonomic AC 4600 P AirCoat gun you will achieve **perfect painting results**. The smooth running air and material swivel joints and the manually replaceable filter housing make it very **user friendly**.

The air and material pressure gauges give **precise** information about the set parameters, providing excellent **control**.

With the compact compressor integrated into the cart the Finish 230 AC compact is **extremely flexible** and **ready for use** anywhere.

Thanks to its very small cross section of DN3 the flexible twin hose has very little material inside and is **particularly easy** to handle. It is protected by a robust casing.

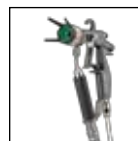

### Finish 230 AC compact Spraypack

Finish 230 AC compact basic unit on cart  
 + AC 4600 Professional gun with green air cap  
 inc. AC nozzle 11/40  
 + 5 litre hopper  
 + HD twin hose, material DN3-ND270, air DN6, 7.5 m

Order Ref. No. 2301 689

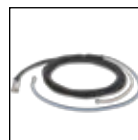

Technical Data	Finish 230 AC compact
Voltage	230 V / 50 Hz
Motor rating	0.56 kW
Max. delivery	1.25 l/min
Max. pressure	19 Mpa (207 bar)
Max. nozzle size	0.019"
Weight	40.6 kg

### F 230 AC compact accessories

#### Guns

- 0394 152 AC 4600 Professional AirCoat gun inc. green air cap and AC nozzle 11/40
- 0394 158 AC 4600 Professional AirCoat gun inc. green air cap

#### High pressure hoses

- 9984 595 HP twin hose 7.5 m; material DN3-ND270; air DN6
- 9984 596 HP twin hose 10 m; material DN3-ND270; air DN6

#### Air caps

- 0394 912 Green air cap for high and low viscosity materials, includes holder

#### Nozzles

- 0379 411 AirCoat nozzle 11/40
- A large selection of other AirCoat nozzles, suitable for any application, can be found in our Compass handbook!
